THE NECESSITY OF REDEMPTION.

A Dull Day in the Stock Market .-- Prices Fluctuating and Lower.

MONEY EASY-GOLD STEADY

TUESDAY, April 7-6 P. M. The Senate has passed the two bills that fix our currency at \$800,000,000. The House of Represenatives is yet to be heard from. Then a committee of conference. On these contingencies Wall street is to-day awaiting. Nevertheless the thought cannot be too persistently pressed home that an increase made to the existing currency, in order to gratify present clamor, would in the long run make it not more efficient for the carrying on of siness. Add to the quantity and the value s lessened. Apparent increase of price would follow, because it would take more paper promises to buy a given quantity of gold, wheat, lumber or iron. These nodities would not be worth more, but the rency would be worth less. The sum and subtance of the whole argument is that we should set our faces steadily and persistently toward such a edemption of our currency as will bring it to a too hasty contraction. We can produce cold enough to resume specie payment; but specie payment will never be required as long as the knowledge of this fact exists. What the country needs is confidence, not gold. When Congress fixes the value of a legal tender on a gold basis, redeems its promises to pay, provides a method whereby one-fourth of its outstanding currency can re-enter its treasury and be substituted for

THE UNITED STATES TREASURY.

The customs receipts to-day were \$538,000. The balances in the United States Treasury at the close of the day were:—Currency, \$3,841,389; special deposits of legal tenders for redemption of certificates of deposit, \$52,215,000; coin balance, \$87,800,917; including coin certificates, \$37,268,700; outstanding legal tenders, \$382,000,000.

coin, from that moment the problem is solved.

PRODUCE EXPORTS.

The total exports of produce from this port for the week ending to-day amounted to \$4,742,056 mixed values, which is a decrease from last week of \$1,305,912. The exports for the corresponding period of last year were \$5,010,645, and for 1872, 23 596 198. The total exports, since January 1, this year, are \$73,804,997, against \$69,398,543 last year and \$56,611,421 in 1872. GOLD MARKET.

Gold opened at 113%, went off to 113% a 113%, but advanced again and closed at 113%. The pre-dictions of operators are generally in favor of nigher gold, and many of the larger dealers are buying quietly and awaiting results. It is not unusual to hear such figures as 120, 125 and 130 mentioned as future prices. Among the members of the Gold Board no men are more

bonds, 93% for the issue of 1862. Amsterdam— Central Pacific, first mortgages, 79%; Union Pa-cific, first mortgage, 72%; Union Pacific shares, 32%; Northwestern preferred, 63; Erie shares, 34.

THE MONEY MARKET.

Money commanded the usual rates on call—to wit, 4 and 5 per cent. Foreign exchange was unaltered at the close, and may be quoted at yesterday's prices.

THE STOCK MARKET

to-day was depressed, and the majority of sales were made in the expectation of lower prices. No business man has faith in inflation. Even the speculator discovers a sudden reaction as the resuit of Senatorial legislation and has made haste to unload. The knowledge that some of the leading Senators who have been most blatant in demanding inflation were operating in Wall street in a pool of 40,000 shares has not tended to elicit much confidence, and we have as a consequence a weaker market this evening than has been observed for several days. The principal business was done in Western Union, New York Central, Lake Shore, Union Pacific, Northwestern, C., C. and I. C. and Pacific Mail. Western Union opened at 79%, but was subjected to severe pressure and declined to 78. From this point, however, there was a reaction, and the close was made at 78%, or % per cent less than yesterday. New York Central sold at 100% a 100% 100% a 100% a 100% a 100% a 100% a 100%. Its close yesterday was 100% a 100%. Pacific Mail commenced at 47%, sold down to 46% and closed at 46%. Erie sold at 39% a 39% a 38% a 38%, a de-cline. Rock Island ranged from 107 to 106% a 106%, closing at 106%; also a decline from yesterday's prices. Lake Shore declined from 79% to 77%, ending, however, at 78%. St. Paul moved downwards from 43% to 42%, closing at 42%. Union Pacific fell off from 38 to 37% a 37%. Ohio and Mississippi ranged from 30% to 29%, ending at 30 a 30%. Northwest, common, was quoted at 55 a 54 a 54% a 54% a 54% a 54%; preferred opened at 71 and closed at 71%. Wabash sold at 46, 45% a 45% a 45% a 45% a 45%. C., C. and I. C. declined from 32% to 32, recovery, however, afterwards being made to % a % per cent. Atlantic and Pacific preferred sold at 16a 15%. Hannibal and St. Joseph closed at 31%. From the foregoing quotations it will be seen that prices are lower than yesterday, and that there is an irresistible

nothing to prevent a still further departure from correct principles, and hence it is feared that the country is about to be launched upon another era of speculation, which will in all likelihood have its culmination in another financial and commercial crisis, like unto that from which it has not yet entirely recovered. The volumes that have been written the innumerable protests which have been uttered, and the many petitions from the financial and commercial the many petitions from the financial and commercial centres which have been forwarded to Congress and the centres which have been forwarded to Congress and the Executive against the policy of inflation seem but to have incited a firmer determination on the part of our national legislators to rush the Inflation bill through in its most objectionable form. On Change to-day flour was firm Wheat was firmer and fairly active. Corn was steady, with a good demand. Oats were steady. Whiskey was steady. Pork and lard were decidedly firmer, particularly the latter, for forward delivery. Freights were firm. The committee, after a brief absence, reported the following preamble and resolutions, which were accepted and adopted without debate:—

Whereas the Congress of the United States and the Legislature of this state have, some two years aloce, bassed a law known as the "Eight Hour law," and Whereas we, the employing mechanics of this city do farmly believe that the eight hour system has not only demoralized the men but has worked to the destruction of all kinds of improvements in this city and affects every interest connected with the welfare thereof; and, being fully convinced that the present stagnation in busins as is largely due to the aforesald system. Resolved, That we, the mester mechanics of the city of New York, and that we will not employ any men who are unwilling to conform thereto.

In the interval during which the committee were preparing their report Mr. Moore, a boss carpenter, addressed the meeting. He tried to show that the Eight Hour law had relined the building interests about this city and that the strikes of society men have been the cause of driving a flourishing industry in shipbuilding away from New York.

Mr. Monroe offered a resolution, which was adopted, whereby the members present were required to sign a paper obliging them to enforce, so far as in their power lay, the ten hour rule on and after the first Monday in May next.

A Violent Assault-Ante-Mortem Statement Required.
